INTRODUCING

SmartLegs™

By LifeDesk

The sit-stand solution that educates, reminds & reports

Every SmartLegs unit is equipped with built-in technology that allows your height-adjustable desk to be paired with software that improves usage and delivers documented health benefits.*

EDUCATE

SmartLegs helps users learn how to set proper sitting and standing heights and when to transition between sitting and standing based on their personal profile.

REMIND

SmartLegs reminds users when it is time to transition using desktop or mobile alerts based on their custom plan.

REPORT

SmartLegs provides users with daily, weekly and monthly performance reports designed to encourage usage and improve health, wellness and productivity.

** certified by The Validation Institute*

PROVEN RESULTS

Out of 100 active software users

85%
Employee usage EXCEEDS 85%

3.4
Employees take 3.4 fewer breaks per day due to discomfort

64%
of users have more energy at work

58%
of users are more engaged

48%
of users have greater job satisfaction

INCREASED PRODUCTIVITY

147 Hours

The data shows that your sit-stand workstation powered by SmartLegs can result in an additional 147 hours of productivity per year by reducing the number of breaks taken each day due to physical discomfort.

30-MINUTE INSTALLATION

Easily transform your desk into a height-adjustable “smart” workstation

SmartLegs by LifeDesk easily transforms virtually any desk or office system into a height-adjustable workstation that improves health and productivity. Simply slide the SmartLegs under your existing work surface and pair the legs with the desktop or mobile app to begin discovering the health benefits of proper desk heights for both sitting and standing.

AFFORDABLE

For about the same price as an above-desk unit, you can transform your existing desk into an easy-to-use electric workstation that adjusts at the push of a button, providing you a proper ergonomic posture in both sitting and standing positions.

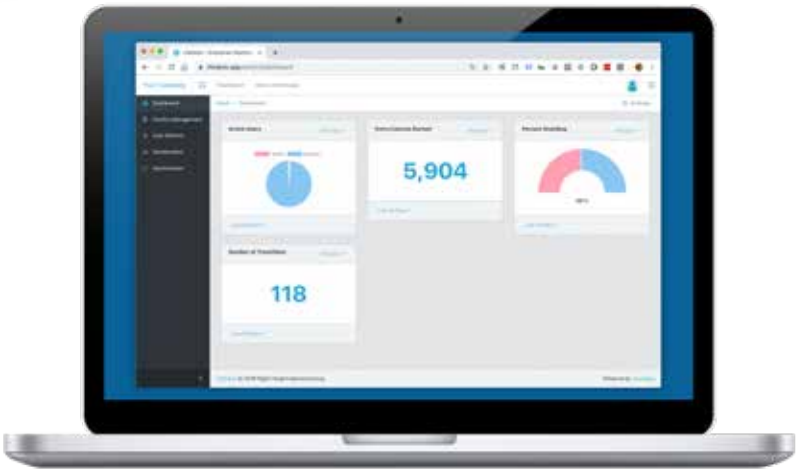
Which would you prefer?

ENHANCE EMPLOYEE WELLNESS

SmartLegs Enterprise™
By LifeDesk

A wellness solution that engages at-risk employees to improve health and productivity through better sit-stand habits and posture change while they work!

Providing sit-stand workstations to employees does not guarantee they will use them or use them properly. SmartLegs by LifeDesk, designed to track metrics and educate employees, also allows organizations to monitor desk usage and engage participating employees through Enterprise level reporting and goal-setting.



SEE FOR YOURSELF

You can test SmartLegs Enterprise using your people and your data. Order a small quantity of units under our SmartLegs Pilot Program and we will educate the users on product use, define your test protocols, set up user groups and report the results.
