The Anti-Fatigue Mat by LifeDesk allows workers in a range of industries to work more comfortably while standing. It features a one-of-a-kind vertical, yet flexible, silicone finger loop so you can move your mat while keeping your hands germ and dirt free. A larger handle enables you to carry the mat if you need to bring it to a new workstation or to and from your home. The 100% polyurethane foam mat has beveled edges to prevent tripping, and is proven to reduce fatigue while standing.
